Nguyen Thanh Tung

Applied AI Engineer

Ho Chi Minh City | nguyenthanhtung020405@gmail.com | 0962327751 | linkedin.com/in/nttung245

OBJECTIVE

IT major focused on software engineering and applied AI. Experienced in building reliable services, integrating APIs, and automating workflows with LLMs. Comfortable with system design, data flows, and deployment practices. Seeking software or AI engineering roles where I can deliver production-ready features and measurable impact.

EDUCATION

VNU-HCM University of Information Technology 2023 – 2027

Computer Network and Data Communication

GPA: 3.5 / 4

WORK EXPERIENCE

Hilab Technology July 2025 – Oct 2025

AI Engineer

Main responsibilities:

- Contributed to the development of an agent-based solution that converts RESTful APIs into MCP servers, enabling more efficient service integration and tool generation.
- Worked closely with the technical lead to enhance product capabilities, refine implementation details, and improve overall solution quality.
- Set up product demo environments using web infrastructure tools such as Nginx and Cloudflared to support internal reviews and external presentations.
- Developed internal tools that streamlined engineering workflows and strengthened day-to-day software development processes.

Technologies used: MongoDB, Docker, RabbitMQ, Google GenAI, Nginx

---

IEC Research Group 2024 – Present

AI Researcher

Main responsibilities:

- Contributed to small-scale multi-agent research projects using frameworks such as AutoGen, Flowise, and CrewAI.
- Explored and applied tools including Airflow and MLflow for ResNet50 model experimentation and workflow management.
- Collaborated with a professor to propose new ideas and improve ongoing research projects.
- Architected a multi-LLM orchestration layer supporting Google Gemini, Groq, and MetaClaw proxy with LangChain
- Eliminated critical AI hallucination vulnerabilities by implementing a sophisticated auth contamination prevention system.

Technologies used: MetaClaw, Docker, LlamaIndex, LangChain, FastAPI, ChromaDB

CERTIFICATIONS

Machine Learning in Production	2026
AWS Cloud Technical Essentials	2025
IBM AI Engineering with Python, PyTorch & TensorFlow	2024
IELTS 6.5	2023 – 2025

SKILLS

Programming Languages	Python, JavaScript, Bash, C++, SQL
Orchestration & Tracking	Airflow, MLflow, Grafana, Docker Compose
CI/CD Tools	GitHub Actions, Jenkins
Web Development Frameworks	ExpressJS, FastAPI, NextJS
Cloud Platforms	AWS, GCP
